Financial Results Briefing for the Fiscal Year Ended February 2022

April 11, 2022

Welcia Holdings Co., Ltd.

1. Outline of Financial Results

- Overview of FY2022 ........ 4
- Results for FY2022 (achievement rates) ........ 5
- Results for FY2022 (cumulative YoY change) ........ 6
- Results for FY2022 (quarterly YoY change) ........ 7
- Breakdown of financial results by company for FY2022 ........ 8
- Monthly sales growth rate (in Japan) ........ 9
- Composition ratio of sales by category ....... 10
- Gross profit margin by category ....... 11
- SG\&A expenses composition ratio ........ 12
- Results in the dispensing sector (in Japan) ....... 13
- Promotion of drug stores with dispensing pharmacy by company ....... 14
- Number of employees ........ 15
- Store openings and closures ....... 16
- Efforts for this term ........ 17

2. Earnings Forecast for FY2023

- Indicator assumptions and priority measures for FY2023 forecasts ....... 19
- Efforts for FY2023 ........ 20
- Full-year earnings forecasts ....... 21
- Full-year earnings forecasts (1H/2H) ........ 22
- Full-year earnings forecasts by company (1) ........ 23
- Full-year earnings forecasts by company (2) ....... 24
- Planned store openings and closures ....... 25
- Difference from the medium-term plan (estimated based on the former standard) ....... 26

## 1 Outline of Financial Results

- Made Marue Drug Co., Ltd. into a subsidiary through the acquisition of additional shares, effective June 1, 2020.
- Made Neo Pharma Co., Ltd. and Summit Co., Ltd. wholly-owned subsidiaries through the acquisition of shares, effective July 1, 2020. (Group consolidated accounting started on September 1, 2020)
Welcia Yakkyoku, a consolidated subsidiary and the surviving company, absorbed the two companies on March 1, 2021.
The results of Welcia Yakkyoku for the same period of the previous year are calculated together with those of the two companies.
- Made Pupule Himawari into a subsidiary through the acquisition of shares, effective December 1, 2021.

| 1. Outline of Financial Results | Actual results | Projections | Difference |
| :---: | :---: | :---: | :---: |

| Number of stores with Welcafe | 382 stores | - | - |

[^0]
## Results for FY2022 (achievement rates)

Although the sales of dispensing pharmacy were $102.8 \%$ of the plan as a result of the normalization of outpatient visits, an increase in the number of stores with dispensing pharmacy, and making Pupule Himawari into a subsidiary, and products sales were $99.9 \%$ of the plan due to the rebound from the special demand in the previous year for food products and infectious disease prevention products (air disinfecting products, alcohol disinfectant, hand soap, and masks), the overall net sales were $100.5 \%$, achieving the plan.
The favorable gross margin of dispensing could cover the shortfall of the product sales plan. Achieved as planned.
Increased the number of qualified personnel in the second half of the previous fiscal year. The effect of measures to improve efficiency in labor costs appeared in the second quarter, and the results were almost as expected. Pupule Himawari became a subsidiary, and the unit price of water, light, and heating costs rose, resulting in the overall SG\&A expenses rate of $101.5 \%$.

Achievement rate 97.1\%
Achievement rate 98.0\%
(Unit: million yen)

## Results for FY2022 (cumulative YoY change)

Net sales
Product sales were impacted by the rebound decline the special demand in the previous fiscal year, but dispensing sales grew at $114.4 \%$ YoY due to the normalization of outpatient visits and the increase in the number of stores with dispensing pharmacy.
The net sales increased by $108.0 \%$ YoY due to a sales increase owing to the management integration (Marue Drug, Neo Pharma and Summit,Pupule Himawari) and active opening of new stores.

Gross
operating profit
Although the gross margin of product sales declined due to the drop in the sales of infectious disease prevention products and foods, the gross margin of dispensing recovered due to the normalization of outpatient visits, leading to the overall improvement of 0.1 points.

SG\&A
expenses
Labor costs rose from the previous fiscal year due to the active recruitment of qualified personnel in the second half of the previous fiscal year, and measures to control SG\&A expenses were taken in the current fiscal year.
Increase in the fourth quarter of the current fiscal year due to the acquisition of Pupule Himawari as a subsidiary

Dispensing pharmacy sales increased due to the normalization of outpatient visits and the increase in the number of stores with dispensing pharmacy.
The decline in sales of products was more than expected due to the rebound from the previous year's special demand for infectious disease prevention products (air disinfection products, masks, hand soap, and alcohol disinfectant) and food products.
Regarding SG\&A expenses, labor costs increased year on year due to active recruitment of qualified personnel in the second half of the previous year.

## YODOYA

Expenses were paid in advance due to renovation of stores with dispensing pharmacy. (Opened 9 stores during the fiscal year)

Sales of products of existing stores increased by a cumulative $0.4 \%$ due to strong sales of liquor and general cosmetics despite the reaction to the previous year's special demand for food products and infectious disease prevention products (air disinfection products, masks, hand soap, and alcohol disinfectant). The cumulative growth rate of existing dispensing stores was $12.0 \%$ and the overall growth rate in the full fiscal year was $2.6 \%$ due to the normalization of outpatient visits and the increase in the number of stores with dispensing pharmacy.

MASAYA
In the previous year, stores in shopping malls were closed due to the spread of COVID-19, and the sales growth rate of existing stores is calculated only for stores that were open in the same month of the previous year.

* Pupule Himawari has included in the calculation of monthly sales growth rate of all stores since December 2021. However, since the stores of the company are regarded as new stores, they are not included in the calculation of monthly sales growth rate of existing stores.
* YODOYA stores and Marue stores became existing stores in March 2021 and June 2021, respectively
* Figures for March 2022 are compared with those before the adoption of the revenue recognition standard.

Cosmetics

High-priced haircare, and skincare products remained strong, and makeup products were on a recovery trend as a result of increasing opportunities to go out.

Sales were strong due to sales promotion measures, despite the rebound from the special demand in the previous year.

Increase in alcohol consumption due to demand for home drinking and increase in fees due to free testing such as PCR
Sales increased substantially because of an increase in the number of prescriptions due to the normalization of outpatient visits and an increase in the number of new stores with dispensing pharmacy (net increase of 201 stores from the end of the previous fiscal year)
(Unit: million yen)

Although gross margin of dispensing declined due to the reduced visits and longer prescription days in the same period of the previous year, the gross profit margin for this term improved due to the normalization of outpatient visits.
Despite the NHI drug price revision, we made efforts to improve patient services and promoted acquisition of dispensing technical fees (additional fees of generics and regional system), resulting in a gross margin of $39.5 \%$.

Sales of products

Decrease in gross profit margin due to the rebound from the special demand for nesting in the previous year

## SG\&A expenses composition ratio

```
Labor costs
```

Since the second half of the previous fiscal year, the composition ratio of labor costs has been high due to the active employment of qualified personnel. However, measures through the active opening of new stores and that for the optimization of labor costs since the second quarter have been implemented. Labor cost efficiency was improved.

## Advertising <br> expenses

Increase in T-Point costs of customer appreciation days, and increase in the number of sales promotions with flyers suspended due to COVID-19 in the previous period

Increase due to active opening of new stores

## Results in the dispensing sector (in Japan)

Overview
In the previous year, the unit price of prescriptions increased and the number of prescriptions decreased owing to the reduced visits and longer prescription days due to the impact of COVID-19. However, in this fiscal year, the unit prices of prescriptions decreased and the number of prescriptions increased, leading to the normalization of outpatient visits.
Despite the NHI drug price revision, we made efforts to improve patient services and promoted acquisition of dispensing technical fees (additional fees of generics and regional system), resulting in the gross margin of 39.5\%.
Excluding Pupule Himawari, the ratio of stores with dispensing pharmacy was $79.9 \%$, an increase of 4.3 percentage points from the previous year.

## Promotion of drug stores with dispensing pharmacy by company

Overview
Actively employed qualified personnel in the second half of the previous fiscal year. For the fiscal year under review, there was a net increase of 201 stores with dispensing pharmacy from the end of the previous fiscal year (201 stores YoY).
The number of dispensing stores in Japan was 1,839 , and ratio of stores with dispensing pharmacy was 76.2\%.

[^3] stores at the end of the period.

## Store openings and closures

Store openings (in Japan)

## Number of working

 months (in Japan)Actual 142 stores (vs. planned: 21 stores)

[^4](1) Pursuing expertise and strengthening marketing capabilities
$\Rightarrow$ Aggressively implemented initiatives that will lead to future growth, such as accelerating the establishment of stores with dispensing pharmacy, responding to free testing such as PCR, and acquiring Welcia Members.
Initiatives (1) Promoted the establishment of stores with dispensing pharmacy
$\rightarrow$ Promoted establishment of new drug stores and stores open on Saturdays by taking advantage of the qualified personnel employed in the second half of the previous year
The number of stores with dispensing pharmacy increased by 201 from the previous term-end, and the number of stores open on Saturdays increased by 248 over the same period
Initiatives (2) PB products development
$\rightarrow$ Karada Welcia and Kurashi Welcia brands launched on June 28, 2021. Sales volume of the 56 SKUs as of the end of February
(2) Thorough efforts to improve store operational efficiency and improvement of profitability
$\Rightarrow$ Started "bulk setting of models" and "work management system" in the second half of the fiscal year, in addition to the previous initiatives ("total man-hour control" and "automatic ordering" etc.) In addition, we launched a customer management system called "Wellness Member" to strengthen a digital sales promotion.
Initiative (3) Establishing a system to standardize "the automatic ordering system" in order to improve person-hour sales. Introduced the "bulk setting of models," a system to reduce ordering work from the second half of the fiscal year
Introduced the "work management system," which visualizes store person-hours and tasks Through these efforts, we are establishing a daily management system.
Initiative (4) Strengthened digital sales promotion, and started the Welcia Member registration campaign in July 2021. Number of registrants: 2.31 million as of February 28, aiming for 4.45 million people by June 2022.
(3) SDGs, social contributions
$\Rightarrow$ Newly established the Sustainability Committee with the aim of achieving both the corporate philosophy and a sustainable society.
Sustainability Management Promotion System is in progress.

## 2 Earnings Forecast for FY2023

- Made Pupule Himawari into a subsidiary through the acquisition of shares, effective December 1, 2021.
- The Group adopted the Accounting Standard for Revenue Recognition from the beginning of fiscal year ending February 2023.
- Welcia Yakkyoku, a consolidated subsidiary and the surviving company, will absorb Kanamitsu Yakuhin, effective June 1, 2022.
On the assumption that this merger will be carried out as scheduled, the plan and results of the previous fiscal year of Kanamitsu Yakuhin after June 1, 2022 are included in that of Welcia Yakkyoku described in this section.

1. Projections

- Net sales
- Ordinary income

Net income attributable to owners of
parent
2. Indicators

- Existing-stores sales growth rate
(Products)
(Dispensing)
- Openings
- Closures
- No. of stores as of end of the fiscal year
- Dispensing pharmacy sales (in Japan)

Number of stores with dispensing
pharmacy (in Japan)
3. Priority measures

- Opening new pharmacies
- Renovation (full renovation)

```
1,110.0 billion yen (Y/Y change: -%)
    51.6 billion yen (Y/Y change: -%)
    28.4 billion yen (Y/Y change: -%)
```

*Existing-stores sales growth rates are compared with those before the adoption of the revenue recognition standard.
9.0\%

129 stores (in Japan: 128; overseas: 1)
25 stores (in Japan: 25; overseas: 0)
2,572 stores (in Japan: 2,560; overseas: 12)
220.8 billion yen (Y/Y change: -\%)

1,975 stores
(Ratio of stores with dispensing 78.7\%)

152 stores (in Japan: 152; overseas: 0)
85 stores
(1) Pursuing expertise and strengthening marketing capabilities
(i) Strengthening regional responses through the area office system and area operations (marketing, dispensing and cosmetics)
(ii) Promoting stores with dispensing pharmacy
(iii) Developing and expanding sales of PB products
(iv) Format enhancements
(2) Thorough efforts to improve store operational efficiency and improvement of profitability
(i) Optimization of man-hours (pursuing man-hour sales)
(ii) Strengthening regional cooperation and interpersonal operations (mechanization, utilization of dispensing operations, and enhancement of specialized education)
(iii) Promotion of DX
(3) Promoting sustainability management
(i) Promoting "the corporate philosophy and the realization of a sustainable society" through our core business
(Unit: million yen)

## Planned store openings and closures

* The ratio of stores with dispensing pharmacy is calculated excluding the number of cosmetics stores (MASAYA stores, and NARCIS stores operated by Welcia Yakkyoku)

Net sales
Ordinary income
Expect growth and achievement through opening stores, opening of dispensing stores, and M\&A Although the gross profit margin improved due to economies of scale and other factors, a negative 2.4 billion yen difference is expected due to the increase rate of expenses exceeding the margin.
(Unit: billion yen)
