## Results for FY2023 3Q (achievement rates)

Operating income and ordinary income fall short due to upfront costs associated with the acquisition of Kokumin and French as consolidated subsidiaries and the rise in utilities costs, despite the increase in OTC products sales due to the increase in the number of COVID-19 cases.

- Provision for loss on guarantees of Employee Stock Ownership ESOP Trust 1,120 million yen recorded as extraordinary loss.
(Unit: million yen)

## Results for FY2023 3Q (cumulative YoY change)

- Double-digit revenue growth due to the consolidation of Pupule Himawari, Kokumin, and French and the growth of OTC products due to the increase in the number of COVID-19 cases.
- Profit increased due to higher sales and control of SG\&A expenses, offset by higher utilities costs.

## Breakdown of financial results by company for FY2023 3Q (1)

welcia

- Welcia Yakkyoku: Increased revenue and profit due to higher sales of OTC products as a result of increased demand for antigen test kits and control of SG\&A expenses.
- Kokumin:SG\&A expenses increased mainly due to expenses related to POS system integration, etc., on the other hand, gross profit showed an improvement trend.
- Pupule Himawari: The gross profit margin improved and operating profit remained in the black mainly due to the review of its product policy and other factors.

## Monthly sales growth rate (in Japan)

*Monthly sales growth rates are compared with those before the adoption of the revenue recognition standard.

- Products: Sales increased mainly owing to the increased demand for OTC products despite the consumer awareness of the need to protect their livelihoods increased due to price hikes.
- Dispensing: The number of prescriptions increased mainly owing to the increased number of stores with dispensing pharmacy, despite the revisions to dispensing fees and NHI drug prices.

- OTC products: Increased due to expanded demand for antigen test kits, combination cold remedies, antipyretic analgesics, and other products.
- Food products: Declined mainly owing to the strategic sales promotions as a countermeasure against customers' conservative buying of food due to price increases.
- Dispensing: Decreased from the previous year due to the effect of the revisions to dispensing fees and NHI drug prices.
